

Cosmetology Program: 1000hrs

In this program, we provide a well-rounded education in an engaging environment for students who wish to embark on a career as a cosmetologist or in related fields. The program will teach and enhance the cosmetologist's broad range of skills and techniques needed to pass the licensing examination and meet clients' demands. The program allows students to accumulate the required hours of technical instructions and the amount of practical operations while learning and improving their techniques and skills before they are allowed to take the licensing examinations.

Skills and knowledge to be acquired:

- * proper use of implements relative to all cosmetology services
- * ability to analyze the scalp, face and hands prior to all services to determine any disorders
- * procedures and terminology used in performing all cosmetology services
- * application of daytime and evening make-up, including the application of individual and strip eyelashes
- * proper procedure of manicuring including water and oil manicure and pedicure
- * the application of brush-on nails, nail wraps, and nail tips

AMERICAN EMPIRE COLLEGE

Skin Care (Esthetician) Program: 600 hours

In this program, we provide a well-rounded education in an engaging environment for students who wish to embark on a career as an esthetician or in skin care related fields. The program will teach and enhance the esthetician's broad range of skills and techniques needed to pass the licensing examination and meet clients' demands. During the program, students will be able to accumulate the required hours of technical instructions and the amount of practical operations while learning and improving their techniques and skills before they are allowed to take the licensing examinations.

Skills and knowledge to be acquired:

- * proper use of implements relative to all esthetician services
- * ability to analyze the skin to determine any disorders
- * learn the procedures and terminology used in performing all esthetician services.
- * application of daytime and evening make-up, including application of false strip eyelashes
- * proper procedure of plain and electrical facials

Nail Care (Manicure and Pedicure) Program: 400 hours

In this program, we provide a well-rounded education in an engaging environment for students who wish to embark on a career as a nail care technician or in manicure and pedicure related fields. The program will teach and enhance the broad range of skills and techniques needed to pass the licensing examination and meet clients' demands. During the program, students will be able to accumulate the required hours of technical instructions and the amount of practical operations while learning and improving their techniques and skills before they are allowed to take the licensing examinations.

Skills and knowledge to be acquired:

- * use of proper implements related to all manicure, pedicure, and artificial nails
- * ability to recognize the various nail conditions and disorders
- * ability to provide professional manicuring, pedicuring, and nail care services
- * safety precautions required to render services related to manicure, pedicure and artificial nails
